WILLETT & WHELOCK

NORTH COLLINS, N. Y.

WHOLESALE TRADE LIST
OF
WILLETT & WHEELOCK
North Collins, N. Y.

WE are not the largest growers of grape vines in the world nor do we plant more cuttings than any one else, but we do endeavor not to let the other fellow get the start of us in quality. We own the farm we plant on, (no rented land for us), and can afford to be liberal in the use of fertilizers, which we have been doing for the last thirty years. This season's purchase of fertilizer material is 35 cars of stable manure from Buffalo, one car pulverized sheep manure from the west, one car lime, 6 ton Thomas basic slag and 5 ton best commercial fertilizer; besides we feed 20 head of cattle on the place and keep 8 horses. We also give more room than other growers. All 2 year old grape vines are planted 3 feet apart in the row and cuttings two feet. This gives room for a good strong stocky growth which our customers appreciate.

STATE OF NEW YORK

No. 1120

Department of Agriculture

Certificate of Inspection of Nursery Stock

Dated, ALBANY, N. Y., Sept. 13, 1911

This is to certify that the stock in the nursery of Willett & Wheelock, of North Collins, County of Erie, State of New York, was duly examined in compliance with the provisions of Section 305 of the Agricultural Law, and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale, or other dangerously injurious insect pest or pests. This certificate expires September 1, 1912.

RAYMOND A. PEARSON,
Commissioner of Agriculture

We append extracts from the letters of a few of our customers:

WESTERN NEW YORK NURSERY CO.

ROCHESTER, N. Y., December 13, 1911.

WILLETT & WHEELOCK

North Collins, N. Y.

Gentlemen:

.....The roots on your grape vines were the best we
ever saw and the vines have splendid tops too. We have no
complaint to make.

Sincerely yours,

WESTERN NEW YORK NURSERY CO.

We are always glad to have those in the trade visit us and will meet all comers at either depot (Angola or North Collins) with auto.

Our Nursery and farm are located between North Collins and Angola. We ship from both towns. At North Collins we have the Erie R. R. and at Angola the Lake Shore and Michigan Southern, the Nickle Plate and Pennsylvania Railroads. We have the Adams, American, National and Wells Fargo Express Companies which give good shipping facilities. We store Grapes, Currants, Goose-berries, Blackberries and Red Raspberries in the cellars for early Spring shipment. Strawberries and tip Raspberry plants are always fresh dug as wanted for shipping. Every box is carefully paper lined and no care will be spared to have the stock reach its destination in good condition.

No charge for packing package or carting to depot, but after delivering to forwarding Company it is understood that we are released from any further responsibility for its safe arrival. We will, however, do everything in our power to trace and hurry the shipment through. BEFORE SENDING US COMPLAINT OF DELAY BE SURE THE STOCK HAS PLENTY OF TIME TO REACH YOU.

GUARANTEE

We have every reason to think our stock pure and true to name, but we also realize that errors creep in in unexpected places sometimes, and we sell with the understanding that we are not responsible for any damage over and above the first cost of the plants, should there be an error. All sales are made subject to above conditions.

CREDIT

We extend credit to all responsible parties, payments due June the first and December the first. If we have never had dealing with you, always send Bank references if credit is desired, otherwise shipment will be delayed until we can look up your responsibility. It is to your interest to avoid delays of this kind

BLACKBERRY

The Blowers Blackberry has become one of the standard varieties, recognized as one of the hardiest of the large fruited kinds. Some inquiry has been received from our customers in regard to its liability to blackberry rust, in reply to such we can say we planted a small patch ten years ago. In the lot there was a rather low wet corner. The ones planted here are still standing in the sod without any care and a careful examination of them last season showed not one rusty bush, which we think good evidence of freedom from this disease.

Prolific offered first this season was originated at the New York Experiment Station and sent out by them for testing, along with several other varieties. It seems to us it is worthy of extensive trial. With us it has proven extremely productive of handsome berries, large and without the usual white tips of most large kinds. If wanted in lots of 100 for testing they will be included with other stock at 50 cents per 100. Not sold in less quantity.

NO SCALE EVER FOUND IN THIS SECTION.
